Graduation

Course	BCA (Computers)
College	Pratibha institute of business management-Chinchwad, Pune
Year of Passing	2021
Grade	70.16%

PROJECTS

Online News Portal (MCA)

This project is entitled Online News Portal Site. This is a web-based application developed in Python and Django Framework. The project is a simple Content Management System (CMS) for the News Publishing website. The application contains the features and functionalities that are commonly found in a news site

Food square (BCA)

Food square is an online restaurant management system. It works as a restaurant hub where people can browse and order food online easily. Now a days, many people in Dhaka city, especially the young generation, often want to order food from restaurants online with home delivery service. Thus, we built a restaurant management system where all the restaurants information, services will be available. We also offer deliverymen will deliver the foods as well, in case a restaurant does not have delivery support.
